

Easily manage e-commerce sales and inventory, right in QuickBooks

Integrate QuickBooks with industry-leading e-commerce platforms and shipping solutions to help simplify e-commerce management, avoid stockouts, and gain a clearer picture of your profitability.

Real-time inventory counts

You'll always know your inventory on hand when inventory counts update with every sale—regardless of how many channels you sell in.

Top shopping destinations

Enjoy seamless integration with top online stores such as Shopify, WooCommerce, Big Commerce, and Magento, and industry-leading online marketplaces like eBay, Amazon, Etsy, and Walmart.com.

Seamless data integration

Simplify e-commerce management and reduce busywork when inventory, sales, product details, pricing, and customer data sync automatically to QuickBooks.

Insights at your fingertips

Get a clearer picture of your online sales, cash flow, and profitability with one easy-to-view dashboard.

Easy item additions

Easily add new product listings and push updates directly to your online channels.

Preferred shippers

Get the flexibility to work with your preferred shipping provider, with integrations to UPS, FedEx, ShipStation, and Stamps.com.

Powered by Webgility

The E-commerce Deluxe integration for QuickBooks Enterprise is powered by Webgility, the premier multichannel retail solution trusted by thousands of retailers and brands.

The E-commerce Deluxe package is flexible

It includes 1 channel, 2 users, and up to 500 orders per month, but you can add more as needed. You'll also have:

- ✓ 2-way inventory syncing
- ✓ Automatically recorded transactions & fees
- ✓ Summarized transactions by day or settlement payout
- ✓ Syncing of order, product, and refund data every 5 minutes
- ✓ Easy product listing
- ✓ 1-on-1 onboarding with a specialist
- ✓ Unlimited premium support via phone/email/chat
- ✓ Access to multichannel analytics via desktop or mobile
- ✓ Capability to configure item bundles and auto-build assemblies based on inventory
- ✓ Sales tax rate validation and automated filing for multiple jurisdictions
- ✓ Automated fulfillment for multiple inventory locations

Let's talk about your needs

Be sure to ask about any additional users or channels for your business.
